

Dahle 20831 EC Department Shredder

Professional Series

Known for its power and waste capacity, this Dahle Department Shredder provides a practical solution for accommodating the shredding needs of even the busiest offices. This is a Security Level 5 machine and considered espionage safe for extremely high demands of document security. Its attractive design and large waste bin make this a nice addition to any large office, copy room or communications center.

The Dahle 20831 EC has a larger feed opening to easily accommodate letter, legal and wide computer paper. It has a maximum sheet capacity of 13/15 sheets at a time and features a large capacity waste bin capable of holding 35 gallons of shredded material.

A solid steel frame houses and aligns two perfectly matched cutting cylinders milled from a single bar of German Solingen steel. It's this design that maximizes durability and minimizes flexing to produce a consistently fine 1/32" x 7/16" particle size.

Properly oiling this Department Shredder is the key to maintaining optimal performance. Due to its function, this Department Shredder will be placed in a common area and have multiple users. As a smart alternative of ensuring your machine receives proper oil, we recommend adding an Automatic oiler.

20831 EC

- 1/32" x 7/16" Shred Size
- 13/15 Sheet Capacity
- Security Level 5
- 2 Hp Motor
- Fully Automatic Features

Large 35 Gallon waste compartment requires less frequent bag changes.

Chain-driven cutting mechanism provides slip free power for maximum throughput.
