- Powerful high security shredder with a combined power of 2 motors for medium-high volumes of "classified" and "Top Secret" documents
- 21 gallon high quality steel cabinet

KOBRA HS

High security shredders for "Classified" and "Top Secret" documents. All models equipped with the "ENERGY SMART" management system for zero power consumption in stand-by mode and with heavy duty chain drive and steel gear.

High security (Level 5) The 0,8 X 9,5 mm. high security cut meets the highest security standards for shredding of "Classified" and "Top Secret" documents combined with maximum shredding performances.

A special cutting system built with 1,200 components can shred a single A4 sheet of paper in about 10,000 micro-chips which becomes absolutely unreadable even if special electronic optical microscopes are used. Tested and approved by many International Governments and Military Bodies these shredders are also being used by the US Department of States, the CIA and the National Security Agency. Model KOBRA 260HS-2 is featuring a special dedicated manual mechanism which allows to shred "Top Secret" documents in case of no power supply (emergencies, military or terrorism attacks).

High security (Level 6) All High Security models are available with the new High Security cut of 0,8 X 5 mm. which meets the latest shredding Standards issued by the National Security Agency (NSA/CSS Specification 02-01) of the US Government. An A4 sheet of paper is shredded into 16.500 micro-shreds.

"ENERGY SMART" Power Management System with illuminated indicators, for zero power consumption in stand-by mode.

Manual crank, a standard feature on the 260 HS-2, to shred documents in case of power loss.

Available KOBRA Accu-Flow Automatic Oiling System eliminates the need for manual lubrication.
