KOBRA 390-400

The KOBRA 390-400 line is designed to shred large quantities of paper. The KOBRA 390 shredders are designed to shred large quantities of computer print-outs, while the high performances of the straight cut and cross cut models of the KOBRA 400 satisfy even the most demanding customers. KOBRA 390-400 line features quiet operation, top quality and excellent performance. All models are equipped with the "ENERGY SMART" management system with illuminated optical indicator for zero power consumption in stand by mode. Models KOBRA 400 C2 and 400 C4 reduce the volume of the shredded material through their special cross cut cutting mechanism which maintains high shredding capacities while KOBRA 400 H56 may be the most powerful high security shredder today available on the market.
