

NOVUS HEAVY-DUTY STAPLERS

HEAVY-DUTY STAPLER B 52/3

The modern and efficient heavy duty lever stapler for parallel and bypass stapling uses 100 staples 23/8 to 23/20 super, Super 15 or Super 20 and accepts paper stacks of up to 17 mm thickness. The throat depth is adjustable up to 11 cm. It disposes of the practical press button front loading system for quick and easy reloading of staples and an advantageous leverage for easy stapling of stacks. The spring-mounted magazine and the double staple guide provide for faultless operation. Its special feature is the adjustable anvil enabling parallel stapling and stapling in folds as well as the bypass stapling which permits to staple even thinner paper stacks with staples of long leg length whereby the staple legs are bent out of the longitudinal axis.

Staple guide:	double
Magazine guide:	metal
Loading system:	Press button loading system
Stapling capacity:	50-170 sheets of standard paper 80 g/qm = ca 16 mm
Stapling methods:	permanent stapling (bypass and parallel)
Loading capacity:	100 NOVUS staples 23/8 - 23/19 super or Super 15, Super 20
Throat depth:	adjustable to 11,0 cm
Weight:	approx. 1900 g
Colour:	light grey / deep black
Art.No.:	023-0035
Bar Code No.:	4009729005798
Packing unit:	1 piece
