

Freedom from taking notes!

M-Series

NEW

M-11 S/W

Color Printing and USB Memory Stick digital storage, with a direct PC connection via a USB cord.

Push a button to output your ideas digitally or to paper!

Save Digitally

- Easily distribute exact copies of your work via e-mail to your audience and to people at distant locations who were not present.
- Include your work in applications such as office programs.
- Further edit and enhance your work with image editing programs.

Print To Paper

- Quickly and efficiently present your audience with an exact copy of the material on the board.
- Listeners can commit their attention to the presentation, not to taking notes.
- Maintain consistency by preventing errors or omissions in drawings, charts and diagrams.

Better than a whiteboard while just as easy to use!

USB Memory Stick

With a USB Memory Stick inserted into the M-11, you simply press the Save button on the control panel to save the information and ideas written on the board.

Direct PC Connection

Download the contents of the board directly to your computer via a USB cable. Also, conveniently control the operation of the M-11 using the bundled software.

On-Board Printer*

Print in four-color or black and white. Present your audience with an exact copy of what has been written. Inkjet and laser printer compatible.

*Printer sold separately.

- Available in Standard & Wide Sizes
- Wall Mount Kit provided
- M-11S pictured with optional Floor Stand and optional Printer

Move Beyond the Whiteboard!

Easy-to-use PLUS Copyboards work with the push of a button. Simply write on the board and then choose between printing your work or storing your writing and drawings digitally.

M-5 Compact Model

CompactFlash™ Card digital storage, with a direct PC connection via a USB cord.

- CompactFlash™ Card Memory
- Built-in Memory
- Direct PC connectivity
- Half the Size of the M-11
- Multiple positions - Horizontal or Vertical
- Wall and Cubicle Mountable
- Floor Standing (Stand sold separately)
- Note: Scans stored as black & white

Simple and easy solutions to increase meeting productivity.

Freedom from note-taking!

Write, copy and share your work using a PLUS copyboard.

PLUS M-Series Electronic Copyboards -

M-11 S/W
Shown with optional floor stand and printer.

The M-11 takes another leap forward in copyboard technology. Increased scan speed, color printing to an on-board printer,*1 digital storage options, and a direct PC connection make the M-11 the new standard in the copyboard market. An ideal tool for business and education.

M-5 Shown wall-mounted.

Half the size of the revolutionary M-11, the M-5 offers digital storage functions in a compact and lightweight design! Ideal for the office or smaller conference room, use the M-5 in a horizontal position or flipchart style, wall mountable and cubicle mountable. Available with an optional floor stand.

The advantages of Paper Hard Copies

Easily print to paper with the push of a button using an on-board printer (M-11) or with a personal printer once the board data has been downloaded to your computer.

- Present you audience with an exact copy of what has been written on the board.
- Listeners can commit their attention to the presentation; not to taking notes.
- Maintain consistency by preventing errors or omissions in drawings, charts, and diagrams.
- Conveniently store paper copies for future reference.

The advantages of Digital Soft Copies

Push a button to store your work to digital media (a USB Stick for the M-11 or a CompactFlash™ Card for the M-5), or use the PC Interface to download your writing and drawings directly to your computer.

- Easily distribute exact copies of your work via e-mail. Send it to absent audience members!
- Using office applications, insert the writing on the board into business documents and other materials.
- Further edit and enhance your work with image editing software.
- Cut down on storage space and clutter with compact digital files.
